"That shows the desperate character of the men we are fighting," he added, saying it illustrated the for arming federal agents. Lowman said the organization of the customs service in the Detroit district has been completed and that it would proceed with fullest energy against the smugglers.

Congress failed to comply with the request of President Hoover that a joint committee be appointed to co-operate during the congressional recess with the president's law enforcement commission looking to recommendations for reorganization of prohibition, enforcement agencies of the govered by congress at its regular session next December. Neither house acted on this request before recessing for the summer leaving the up much senate legislation.

The senate in turn adopted and law enforcement commission to

go its way alone. Just before the recess there was criticism in the senate of the commission's program, Glass, Democrat, Virginia, saying that the president in his instructions to the commission had shunted prohibition into an inconspicuous corner. The commission is holding meetings here this week but it has tak. en no cognizance of current prohibition discussion growing out of the series of enforcement killings. Instead the commission is methodically organizing to study the fundamental general causes of laxity in law enforcement, legal delays and such technical problems.

Prohibition officials, especially Prohibition Commissioner Doran, believed that a long step forward in getting liquor sources had been taken with the returning of some 150 indictments in Brooklyn in volving charges of manufacture and sale of accessories to the bootleg industry such as bottles, labels, whiskey barrel shavings used for flavoring bootleg whiskey, and other synthetic aids without which no modern distillery is complete. The deaths occurred at a small community within a few hundred feet of two oil refineries but calls for ambulances to take care of persons rendered unconscious were being received from farm homes within a radius of two miles. Rescue workers reported that barnyards were literally

covered with poultry and livestock. The effect of the gas produced apparent asphyxiation and for this reason victims were cared for in the open air outside of hospitals.

Senator From New York

Robert Ferdinand Wagner was born at Nastatten, Germany, June 8, 1877. Brought to the United States in childhood, he was graduated from the College of the City of New York, later obtaining an L. L. B. degree from New York Law school. He began practicing in New York City. He was a member of the New York state assembly from 1905 to 1908 and the state senate from 1909 to 1918. In 1914 he was lieutenant governor of New York. From 1919 to 1926 he served as justice of the supreme court of New York when he resigned. The following year he was elected to the United States senate. He is a Democrat.

This story is being related of Knute Rockne, celebrated football coach of Notre Dame, who is in charge of a two-week's coaching school at Wittenberg College at

The other day some one walked up to the Notre Dame wizard with the intention of paying him a com pliment for his coaching ability. Rockne's admirer recalled Notre Dame's defeat by Carnegie Tech in football and told Knute that it would have been a different story if Rockne had been with the team on the field on that occasion.

Although realizing that it was a compliment, Rockne laughingly said that the remark was more or less an insult, pointing out that a good coach should have his team so well trained that it will play its best game, regardless of whether the coach is present or absent.

"That puts football teams in the same class with trained animals that cannot perform their tricks without their trainer present,' Knute pointed out.

# COLUMBUS COLORED TEAM WILL OPPOSE RESERVES SUNDAY

The Kimball Stars, leading Coumbus colored team, will present a strong lineup for a scheduled baseball game with the Reserve nine here next Sunday afternoon at Washington Park.

Either Joe McCann or Lee Western will pitch for the visitors with Willie Lucas or Rockey behind the plate, J. R. Nuby on first, Bird at second, Pots at third, Woods or Mark at shortstop and Clark, Evans and Ellie patrolling the garden.

No revision of the Reserve line up is anticipated and Maxton will probably be assigned to preserve the local team's two-game winning streak if possible.

Reserves were prevented from playing last Sunday because of rainy weather and hope for better luck this week. Sunday's contest is carded for 3 o'clock.

FIVE HOURS

PLAN FOR PART SEVEN!

It isn't good policy to pick on a team when it's down and fans in this section are generally engaged at present in the pastime of picking on the lowly Cincinnati Reds. Maybe its because the Reds are such easy picking.

lected the Hendricks herd to wind carded for 3 o'clock. up in sixth place this season but if they don't snap out of it soon, nothing short of a miracle will enable the team to head the second

It is either a feast or a famine for the Reds, who have been duck soup for most of the National League teams to date with the possible exception of the New York Giants. Nothing seems to go right. One day the pitching is all that can be desired but the batting is negligible as it almost always is The next day the light-hitting Reds score more runs than usual and pitching department falls vn. Then again this supposedly

game by misplays in the field at critical momen Tuesday Cincinnati came to life behind the great pitching of Red Lucas and won a ball game, defeating the Pittsburgh Pirates, 2

This story is being related of Knute Rockne, celebrated football coach of Notre Dame, who is in charge of a two-week's coaching school at Wittenberg College at

The other day some one walked up to the Notre Dame wizard with the intention of paying him a com pliment for his coaching ability. Rockne's admirer recalled Notre Dame's defeat by Carnegie Tech in football and told Knute that it would have been a different story if Rockne had been with the team

on the field on that occasion. Although realizing that it was a 6 (first game 11 innings). compliment. Rockne laughingly said that the remark was more or less an insult, pointing out that a good coach should have his team so well trained that it will play its best game, regardless of whether the coach is present or absent.

"That puts football teams in the same class with trained animals that cannot perform their tricks ithout their trainer present, Knute pointed out.

# When your Children Cry

Here's relief and comfort for crying, fretful, feverish babies or children that you don't need to They love the delicious taste of him suggestions which strengther Fletcher's Castoria. Your doctor their cwn work; and children will tell you it's absolutely safe, so you can give it as freely and as der and amazement, as he, by often as needed to keep your children happy and well. A few drops is all it takes to quiet fretful, feverish, colicky babies; relieve thei biliousness, gas on stomach, con stipation, etc.; soothe them to sleep in a jiffy. For like disorders in older children, you simply use little larger dose of the same reliable Fletcher's Castoria. Don't use grown-folks' medicine; with babies or children, specialists say. Ninety per cent of them recommend Fletcher's Castoria; and thirty years of steadily increasing popularity proves they're right. To protect you from imitations, the Fletcher signature is on every bottle of genuine Fletcher's Castoria.

# COLUMBUS COLORED TEAM WILL OPPOSE RESERVES SUNDAY

The Kimball Stars, leading Columbus colored team, will present a strong lineup for a scheduled baseball game with the Reserve nine here next Sunday afternoon at Washington Park.

Either Joe McCann or Lee Western will pitch for the visitors with Willie Lucas or Rockey behind the plate, J. R. Nuby on first, Bird at second, Pots at third, Woods or Mark at shortstop and Clark, Evans and Ellie patrolling the

No revision of the Reserve lineup is anticipated and Maxton will probably be assigned to preserve the local team's two-game winning streak if possible.

Reserves were prevented from playing last Sunday because of rainy weather and hope for better luck this week. Sunday's contest is

# Stops knocking, gives smooth, even power...and a cool motor

N WARM WEATHER gasoline must meet vastly different conditions than exist during winter. The need for quick starting volatility vanishes. Gasoline must now have special qualities to provide smooth, sustained power for hard, fast driving.

Knocking becomes more pronounced in summer, particularly in modern high-compression motors, and in motors caked with carbon. The danger of overheating arises. A knocking motor labors on hills, causes excessive vibration, a noticeable loss of power and needless wear and tear on the engine.

Weeks ago engineers of the Standard Oil of Ohio began making Sohio to meet these special summer conditions. Summer Sohio Ethyl eliminates the troublesome knock, puts new snap into lazy, sluggish motors and gives you cool, quiet, dependable operation. # It keeps your food safe \_the temperature is well below 50 \_\_always!

For family health for appealing menus \* \* \* this is vital

In the General Electric Refrigerator the temperature is kept several degrees below fifty ... always! Fifty degrees is accepted by scientists as the "danger point" in the preservation of food. When the temperature rises even a degree or two above that, bacteria multiply, foods become unsafe to eat.

Perhaps you think your own refrigerator is always "cold enough." You cannot be sure unless you actually take your refrigerator's temperature. It is constant cold which is needed.

Note these vital points of superiority

Countless superiorities give the General Elec-

tric Refrigerator its outstanding position ... an

hermetically sealed, dust-proof mechanism,

mounted on top ... an accessible temperature

control . . . a new standard of quiet operation

... no oiling ... no troublesome machinery ...

simplified installation...no radio interference

...an unqualified two-year service guarantee.

The new all-steel cabinets and the hermetically

sealed mechanism combine to produce what we believe is the finest refrigerator ever made.

Not a dollar for repairs

More than a quarter of a million homes are enjoying the convenience, economy and healthguarding services of the General Electric Refrigerator. And not one of these owners has ever paid a dollar for repairs or service! This is a record in the industry.

The new all-steel General Electric Refrigerators are priced as low as \$215 at the factory. A small payment down places one in your home, Visit our display rooms—see the new models—

you'll agree that they offer the greatest values.

# What Dr. Caldwell Learned in 47 Years Practice

Dr. Caldwell watched the results of constipation for forty-seven years, and believed that no matter how careful people are of their health, diet and exercise, constipation will occur from time to time regardless of how much one tries to avoid it. Of next importance, then, is how to treat it when it comes. Dr. Caldwell always was in favor of getting as close to nature as possible, hence his remedy for constipation, known as Dr. Caldwell's Syrup Pepsin, is a mild vegetable compound. It can not harm the most delicate system and is not a habit forming preparation. Syrup Pepsin is pleasant-tasting, and youngsters love it. It does not gripe. Thousands of mothers have written us to that effect.
